Sub: Inviting referrals for faculty positions in Teacher Education at Azim Premji University

Dear Sir,

Greetings from Azim Premji University.

It gives me immense pleasure to inform you that Azim Premji University is starting two new programmes in the area of teacher education this year.

Azim Premji University was established in 2010 by the Azim Premji Foundation. The Foundation works extensively with the public school systems in many states in India, with a clear purpose - to contribute to a just equitable, humane and sustainable society. The University supports Education and related fields of human development through its programmes of study that prepare professionals with integrity, competence and social commitment.

The University presently offers a liberal undergraduate degree in the Sciences, Economics and Humanities and postgraduate degrees in the fields of Education, Development, Public Policy and Law & Development. This year we will start the Undergraduate (B.Sc. B.Ed.) and Postgraduate programmes (M.Ed.) in Teacher Education.

It is in this context that I solicit your help in reaching out to your alumni network of teacher educators. We are keen to reach out to students from previous batches who have graduated from your institution to join us as faculty. We hope that many of them would resonate with the purpose of Azim Premji University and would be keen to contribute to the design, development and operation of our Teacher Education programmes.

Our team would be happy to reach out separately to your alumni network and I would request you to guide them. I would also request you to share these details in your network of teacher educators and academic administrators. You can send in your referrals directly to me or rohini.sen@azimpremjifoundation.org. She will be happy to answer any queries and will reach out to you to take this ahead.

I thank you for your valuable time and wish you the very best with your current endeavours.

Anurag Behar
Vice Chancellor

Dean (E)
