E-governance Report: Regional Institute of Education, Bhubaneswar

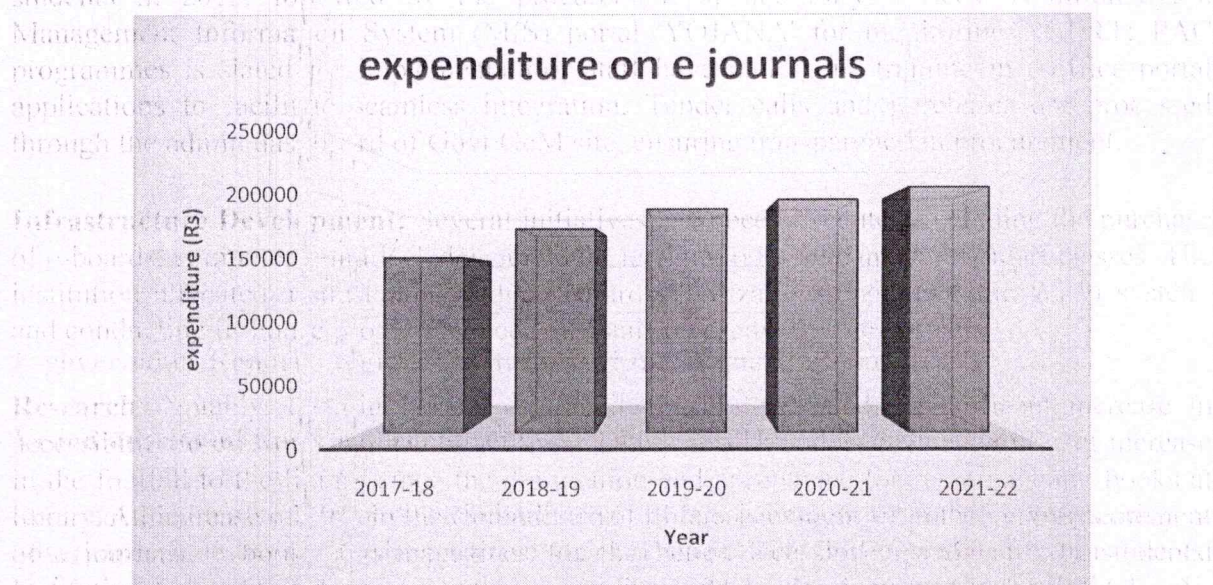

Vision mission of the E- governance:

Regional Institute of Education, Bhubaneswar has been at the forefront of implementing e-governance initiatives over the past five years. These efforts have significantly transformed various sections of the institution, enhancing transparency, efficiency, and accessibility.

Planning and Development: The institute has initiated planning for biometric attendance of students in 2022, followed by the procurement of necessary devices. Additionally, a Management Information System (MIS) portal 'YOJANA' for monitoring NCERT: PAC programmes is slated for implementation. Staff have undergone training in e-office portal applications to facilitate seamless integration. Tender calls and purchases are processed through the admin dashboard of Govt GeM site, ensuring transparency in procurement.

Infrastructure Development: Several initiatives have been executed, including the purchase of e-boards, computers, and ICT development, leading to the expansion of smart classes. The institution allocated a substantial budget towards digitization, upgrading the Wi-Fi system, and conducting in-house programs to educate staff on e-governance systems.

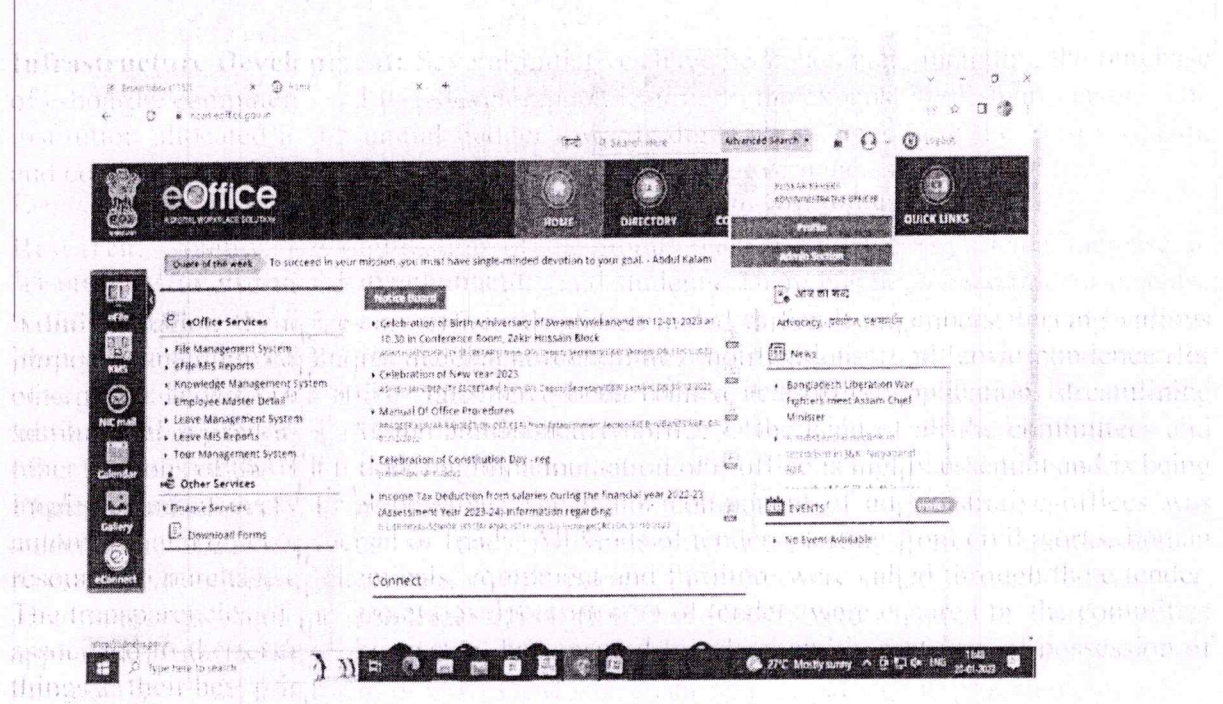

Research: Notably, the digitization of the library has provided a significant increase in accessibility to e-resources for the faculty and students. There has been a significant increase in the footfall to the library since the digitization and acceptance for e journals and books at library. An increase of 29% in the expenditure of library is evident from the very procurement of e journals, e books and magazines for the better accessibility and care for students. Institutional repository has been established with 1224 books. E resources like SAGE , N-List, DelNet and NCERT counting to about one lakh (+) books available for students and faculty members.

List, DelNet and NCERT counting to about one lakh (+) books available for students and faculty members. The institute has initiated planning for biometric attendance of students in 2022, followed by the procurement of necessary devices. Infrastructure Development: Several initiatives have been executed, including the purchase of e-boards, computers, and ICT development, leading to the expansion of smart classes. The institution allocated a substantial budget towards digitization, upgrading the Wi-Fi system, and conducting in-house programs to educate staff on e-governance systems.

Administration: E-notices are efficiently disseminated to faculty members, serving various purposes such as collecting feedback, committee notifications, and correspondence for emergency leaves. The office staffs have been trained in e-office application, streamlining administrative processes. As the administrative office is the head of all the committees and other sections of the institution, the implementation of e-office is highly essential and is being implemented at every level possible. The major component of administrative offices was automated and quick dispersal of funds. All kinds of tenders starting from civil works, human resource to purchase of chemicals, equipment and furniture were called through the e tender. The transparencies of the quotations upon opening of tenders were ensured by the committee associated to the tender. This system has ensured the clean and honest way of possession of things at their best prices.

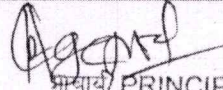

Finance and Accounts: The institute has digitized its finance management systems, encompassing monthly pay slips, bank advice, TDS advice, and other financial transactions, ensuring accuracy and transparency. Though the e governance has been implemented only for the generation of pay slips and bank advices but slowly and gradually all the major financial transactions and reimbursements and payments were done in -house using PFMS. Leave encashment, LTC, pension, PAC programme, development of science kits/ NTS amounting to approximately Rs. 2150 lakh. Payments related to land development, building, equipment and furniture approximately Rs.615 lakh were been transacted through PFMS.A total of 67% of the budget is being dispersed and distributed through PFMS.The implementation of e governance in finance and accounts has made the dispersal of bills and payments at a quick and convenient method.

Subject: Revised instructions on bringing Autonomous Bodies (Abs) under the Treasury Single Accounts (TSA) and Revised procedure for flow of funds under Central Sector Scheme

Ref : Council's letter No. 1-24/cash/TSA/NCERT dated 19th January, 2022 regarding Status report on Implementation Treasury Single Account (TSA) and EAT module of PFMS in constituent units of NCERT

Sir,

This has reference to MOE's (Reminder-II) letter No.2-3/2021-Sch.4 dated 22nd July, 2022 on the subject cited above (copy enclosed). In this connection, it is stated that no status report on implementation on Treasury Single Account (TSA) and EAT Module of PFMS in your institute has yet been send to us whereas a period six months has elapsed.

However, in case the institute has not implemented and made any transaction under TSA and EAT module of PFMS, the reasons for delay in implementation of the same alongwith justification, may be furnished to NCERT Hqrs.

It is, therefore, requested to look into the matter and map the Treasury Single Account of your units under PFMS immediately and send a status report in this regard to CAO/IFA so as to apprise the matter to MOE.

Yours faithfully
