Introduction

Teacher's skills and competencies are important factors in the effectiveness of teaching and therefore pupil learning. The National Curriculum Framework (NCF, 2005) while suggesting improvement of quality of teacher education programme states that teacher education must become more sensitive to the emerging demands from the school system. Teacher preparation is an activity that requires multidisciplinary perspectives and knowledge formation of dispositions and values, and development of practice under the best mentors (NEP 2020). The curricula of teacher education institutions need to be designed to provide for the acquisition of these skills by student teachers. For this it must prepare the teacher for the role of being an encouraging, supportive and humane facilitator in teaching-learning situations. This will enable learners to discover their talents, realize their physical and intellectual potentialities to the fullest, and to develop character, desirable social and human values to function as responsible citizens. The TEIs need to be restructured and there is a need of raise its standards and restore integrity, credibility, efficacy and high quality of teacher education system (NEP 2020). The National Curriculum Framework for Teacher Education developed by NCTE (2009) states that "A teacher functions within the broad framework of the school education system – its goals,

Teacher's skills and competencies are important factors in the effectiveness of teaching and therefore pupil learning. The TELs need to be restructured and there is a need of raise its standards and restore integrity, credibility, efficacy and high quality of teacher education system (NEP 2020). The National Curriculum Framework for Teacher Education developed by NCTE (2009) states that *"A teacher functions within the broad framework of the school education system – its goals, curricula, materials, methods and expectations from the teacher. A teacher needs to be prepared in relation to the needs and demands arising in the school context, to engage with questions of school knowledge, the learner and the learning process. The expectations of the school system from a teacher change from time to time, responding to the broader social, economic and political changes taking place in the society"*. We have seen two kinds of exclusion prevalent in schools largely because of an inadequate preparation of teachers to address diversity in the classroom. The first is the exclusion of the children with disabilities of different kinds and learning difficulties and the second is exclusion is the social exclusion of children who come from socially and economically deprived backgrounds Scheduled Castes (SCs), Scheduled Tribes (STs), minority and other communities, girls and children with diverse learning needs. There is a dire need to equip teachers to overcome their biases in this regard and to develop professional capacities to address these challenges.

In this connection I request you to accommodate three groups, each consisting of 15 or 16 student-teachers of B.A. B.Ed course, in your school on rotation basis from 1.2.22 to 12.2.22 so that each group will be able to enrich itself in the unique online academic ambience of your institution for 4 days.

Further, Prof. Srivastava suggested that once activities of PAC programmes are started, its outcomes must have been taken.

Prof. K.C. Sahoo while discussing on the Programme-17.07 suggested that in the Progress of the Programme for the year 2019- 2020, it should be written as "Programme has been developed, Draft copy of Diploma Programme in Science Education has been prepared" instead of Programme Guide have been developed.

Prof. K.C. Sahoo enquired about the gap between the allocated and expenditure Budget of some programmes. As per clarification submitted by the APC (Extension), some expenditures already incurred were pending at the end of Accounts Section for payment through RTGS.

Thereafter, the Programme Proposals for the year 2020-21 were briefly discussed in detail by the IAB Members and suggestions were given for merging of impact study research proposals in Mathematics and Physics at higher secondary stage in Bihar as one programme. Sir/Madam,

School Internship is an important component of pre-service teacher education programme. As part of B.Ed programme, our student teachers would be placed in different JNVs of Eastern region from 12th July 2019 to 8th November, 2019 for undertaking internship activities. This has been communicated and approved by competent authorities of NVS. To develop teacher identity among them, they would be involved in different activities like teaching in two pedagogy subjects, observation of regular teachers and peers, action research, achievement test, organization of other curricular activities etc. under your expert monitoring and guidance. They will be present in the school full time during the period and apart from their internship related activities, they can be nurtured to contribute to other school processes assigned to them by the school. In this regard, permission has been obtained from the HQ of JNVs. The Regional Office of Bhopal and Patna, under which the concerned JNVs function, have also been intimated about it by the Dean of Instructions of RIE Bhubaneswar (Copy of the letter enclosed). You are further requested to arrange food and accommodation to these trainees in your school campus. However, our students shall make the payment for food, as per rule. The following student teachers would be attached at your school during the mentioned period.

Dear friend,

Greetings from the Ministry of AYUSH on the occasion of the International Day of Yoga (IDY)-2019!

Yoga offers numerous rewards that improve our health and secure us peace of mind. It improves our performance in workplace, has a positive impact on our personal relationships and helps us to maintain harmony with the surroundings which we live.

As is well-known, the fifth International Day of Yoga falls on 21st June 2019. The observation of IDY started in 2015 following a decision of the United Nations to observe 21st June as the day dedicated to Yoga. It is matter of pride to Indians that this decision came at the behest of the Hon'ble Prime Minister of India, who proposed this in his speech to the UN General Assembly in September 2014.

Like previous years, millions of people in over 200 countries are expected to participate in the IDY this year also. Yoga has something to offer to everyone, be it a hopeful child, an aspiring youth, a parent, or senior citizens. IDY is already the country's greatest mass movement for public health, and participating in it is an inspiring way to get introduced to Yoga.

IDY is for all of us. The thrust of the IDY observation is on harmonious mass yoga demonstrations on 21st June 2019. Community-driven IDY events are taking place in thousands of venues and virtually every neighbourhood across the country on that day. The Ministry of AYUSH invites you to join the IDY movement by selecting an appropriate IDY event near you and participating in the same.

Be a part of IDY-2019. Start a journey towards good health and well-being.

With the best of wishes,
- Ministry of AYUSH
Government of India

The President, BSE, Odisha, Dr. Jahan Ara Begum observed about the research study entitled Low Performance of Students in Odia and Social Science in High School Certificate (HSC) Examination in Odisha: An Analysis an ongoing programme of 2017-18. She observed that the previous two years result of Board clearly reports about the poor performance in Science. The chairperson observed that as the programme is ongoing the component may be included in other programmes. In this context, the SPD, OPEPA Sri Mahendra Kumar Mallik suggested to focus the reasons of low performance in Odia and Social science from early stages, preferably upper primary stage (Class VI-VIII).

education and teacher education in the state. He discussed about the last SCC Minutes and it was confirmed.

2. The Director IE & SCERT, Odisha suggested need based programmes on Capacity Building of KRPs on Action Research, Development of strategies for culture specific (culturally responsive) internship models for pre-service teacher education institutes of the state, Planning for learning enhancement, Orientation of Principals and Teacher Educators of Aspirational districts, Orientation of master teacher educators on teaching and learning language and sharing workshop of eastern zone best practices of teacher education.
3. Shri Bhupendra Singh Poonia, SPD, OPEPA and OMSM thanked RIE, Bhubaneswar and NCERT for conducting different need based programmes for the state. He suggested that the outcomes of research and training programmes need to be shared among concerned state officials for better follow up. Some of the areas where OPEPA and RMSA of the state need NCERT's academic support are Technology and e-content development (for classes I-X), Research/Assessment of classroom practices and innovation and content cum pedagogic enrichment of Teachers of Odisha Adarsh Vidyalaya Sangathan (OAVS).
4. Prof. Saroj Yadav, Dean, Academic, NCERT suggested that the training programme proposed must focus on orientation of Master trainers/KRPs. 5. The Chairperson observed that that state has been conducting innovative programmes for remedial programmes like *Ujjawal*, *Vilhan* and *Utkarsha* at primary, upper primary and secondary level respectively. The programme has larger impact as observed from field visit by state officials. The performance of the state in NAS is not satisfactory in the country.
