As a teacher we can develop our professional skills through getting exposure to classes and experienced teacher guiding us.

I expect that after completing this internship I would be able to manage the classroom nicely and would be well acquainted with the school activities.

It's very helpful for developing my Quality . And grow up in future.

I possess excellent communication skills a team player and most importantly dedicated worker

It plays a great role to switch our passion to profession

As a learner I am also learn from the students they are also learn from me gain experience from this process

My expectations from school is that they should help and guide us in our journey for internships...as we are trainee so we need their utmost support...

Good

It is at far place which cause problem

Pre internship activities made us to built our confidence as well as handle the situation and to fit ourselves in new place which is literally very unknown to us

I wanted to know more about action research and achievement test and reflective diary as some doubts are arising during internship.

It helped me to make reports with ease.

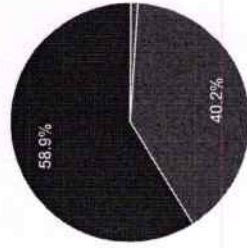

That was good enough for us which motivated us to do best in the school.

All the school heads or the cooperating teachers presence and their explanation about the school could be done in more proper ways with maximum participation
